CONCEPT DESIGNING FOR COMPLETE TEA CLEANING & PACKING

Bhargab's Tea Blending and Cleaning Machines have gained wide acceptance in the country as well as abroad. We are proud to have as our customers distinguished names in the tea industry like Unilever, Balmer Lawrie, Brooke Bond, Lipton, Tata Tea, etc.

The countries where our plants have been commissioned include:

- Bangladesh ■ Indonesia ■ Poland ■ Sudan ■ China ■ Iran ■ Russia
- UAE (Dubai) ■ Egypt ■ Kazakhstan ■ South Africa ■ UK ■ Ethiopia
- Kenya ■ Sri Lanka ■ Uzbekistan ■ Turkey ■ Vietnam ■ Syria

OUR MISSION

When Late Pranatosh Kumar Sen launched Bhargab Engineering Works, little did he imagine that ours would become almost a household name in the Tea Industry, but as it happened, he proved to be a true visionary with rare foresight and great business acumen. Following his footsteps it has always been and continues to be our endeavour to go on expanding our horizon.

While pursuing new ventures, the interests of our existing clientele will continue to hold top priority in our scheme of things. We will continue to render our best services to them.

We are trying to keep pace with the times. We are already in the process of globalisation.

We at Bhargab, however, refuse to sit on our laurels. There is a lot more to achieve and many more hearts to win. We would like to identify ourselves with the industrial resurgence of West Bengal. Through continuous upgradation of technology and product innovation we want to scale new heights and be counted.

Our motto, as always, will continue to be :
Excellence through experience.
